Deputy Assistant Director, ORR

20 June 1958

Chief, Geographic Research

Operation Alert 1958, Geographic Area Participation

25X1A9a 1. If present thinking concerning ORR participation in Operation Alert culminates in the formulation of a plan and each Area is required to supply two participants. I wish to name [REDACTED] as the Geographic Area participants. These two men could effectively represent the interests of the Geographic Area in discussing possible wartime services and relationships which we would expect to give and receive from a number of organizations.

25X1A9a 2. Following this paragraph is a listing of organizational units with which we would expect to conduct business during a wartime situation and which, for the purposes of Operation Alert, could be contacted by [REDACTED]. The purpose of the contacts would be a review of their holdings of vital material, the plans for staffing their emergency center, and an evaluation of the relocation organization to accomplish emergency activities which would be in support of our own mission in wartime. Our representatives would also ascertain what requirements the contacted units would expect to place upon us in wartime.

a. DEPARTMENT OF THE ARMY

- (1) Army Map Service
- (2) Assistant Chief of Staff, Intelligence (ACSI)
 - (a) Topographic and Geodetic Division
